FOR ROAD TRAFFIC VICTIMS

Joined with all countries in the world on the 19th of November 2023 we commemorated again the World Day of Remembrance for Road Traffic Victims.

In 1993, at the initiative of Brigitte Chaudhry, founder of Road Peace, this celebration started in the UK and quickly spread to other victims' organizations under the auspices of the FEVR.

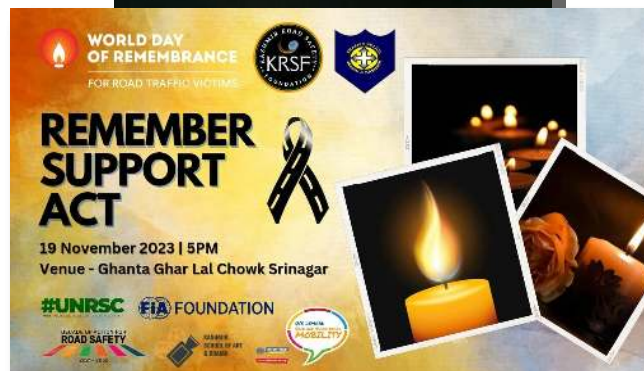

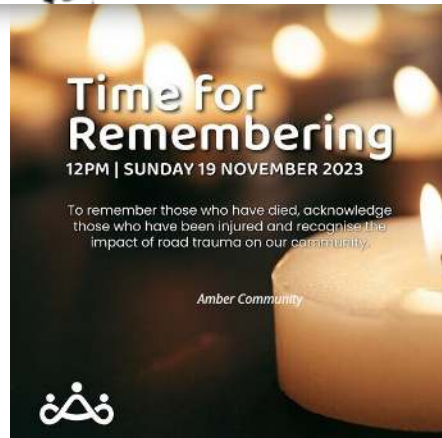

In October 2005, the UN officially declared the third Sunday of November the World Day of Remembrance for Road Traffic Victims, since then more and more national and international institutions support this day and they are taking the aim of "vision Zero", that means no more victims in traffic mobility.

During the last 30 years more than 50.000.000 of people have died and over 500.000.000 were injured. (according to estimates by the European Commission for each deceased person have been 4 people with brain or spinal cord injuries, 8 people with serious injuries and 50 people with several injuries.

- Member States should adapt 'Vision Zero' for **all** road users since each road death and injury is much more than just a number. These are real people and family tragedies.
- Don't call these deaths or serious injuries accidents: **Crash not Accident**

Let's honour on this day a memory for the victims and families suffering and commit ourselves to not allow this to further continue to occur. *(adapted from WdoR PR 2018, still true)*

Brigitte Chaudhry and Jeannot Mersch had written an E-Book about 30 Years of Remembrance (1993-2023)

Both are road death bereaved parents, who have dedicated the past 25-30 years since the deaths of their children (Brigitte's son in 1990 and Jeannot's daughter in 1993) to working on behalf of all road traffic victims, including sharing with them the World Day of Remembrance, so that now after 30 years, it is known in all countries of the world and observed in most. May its observance eventually lead to our vision of near Zero road deaths and injuries.

**"Not having a unified theme,
something bound to lead not only
to confusion, but a serious
weakening of the strength and
worldwide recognition of this long
established Day itself." B. Chaudhry**
